

Peggy Fonseca

Port of Corpus Christi

Peggy Fonseca is an Emergency Management Specialist at Port Corpus Christi, where she oversees Planning and MTS Recovery since joining the organization in 2024. By leveraging her vast deployment experience, she assisted in the Port's ICS-214 Activity Log application, which digitizes ICS-214 activities. Prior to joining the Port, she served in Emergency Medical Service (EMS) Chief, Emergency Management Coordinator (EMC), and Licensed Peace Officer roles. She has also served as Command and General Staff for over five NIMS Type 1 deployments as well as other international events.
